

Stability and Control of Aircraft

EAS 4400 : Section 2474

Class Periods: M,W,F 5th period (1145-1235)

Location: MAE-A 303

Academic Term: Fall 2019

Instructor

Rick Lind

ricklind@ufl.edu

352.672.0604

Office Hours in MAE-A 324 : M,W (12:50-1:40)

Teaching Assistants

John Nix

jacknixjr@ufl.edu

Office Hours in MAE-A 321 : M,W (9:35-11:30)

Momin Haider

mominade@ufl.edu

Office Hours in MAE-A 321 : Th,F (9:35-11:30)

Course Description (3 credits) Static stability and control, equations of motion, stability derivatives, stability of longitudinal and lateral motion of aircraft

Course Pre-requisites

EAS 4101 and EML 4312

Course Objectives

This course will demonstrate the principles that govern aircraft. You will learn issues associated with flight dynamics such as nonlinear and linear equations of motion, static and dynamic stability, longitudinal and lateral-directional modes, and aircraft responses to excitation. You will learn to relate systems concepts, such as transfer functions and state-space representations, to these flight dynamics. Most importantly, you will learn how to apply and utilize the fundamental theories from previous courses to evaluate novel configurations of aircraft.

Materials and Supply Fees This course does not have any fees.

Professional Component (ABET) This course will instruct students on flight dynamics as applied to aerospace systems. The students will be taught the mathematics related to flight, such as differential equations and linear algebra, along with methods for solving the resulting equations. Furthermore, the course will relate the mathematics to specific features of aircraft using examples from government and industry systems. The course will be 40% mathematics and 60% engineering sciences.

Relation to Program Outcomes (ABET)

Outcome	Coverage
a. Apply knowledge of mathematics, science, and engineering	HIGH
b. Design and conduct experiments, as well as analyze and interpret data	LOW
e. Identify, formulate, and solve engineering problems	HIGH
k. Use the techniques, skills, and modern engineering tools necessary for engineering practice	LOW

Required Textbooks and Software

This course does not have a required textbook.

Recommended Materials

- Thomas Yechout, Steven Morris, David Bossert and Wayne Hallgren, “*Introduction to Aircraft Flight Dynamics*, AIAA, 2002, ISBN 1-56347-577-4.
- Warren F. Phillips, “*Mechanics of Flight*, Wiley, 2010, ISBN 978-0-470-53975-0.

Course Schedule

The first part of the course will cover flight dynamics by introducing concepts of nonlinear and linear equations of motion, static and dynamic stability, longitudinal and lateral-directional modes and aircraft responses to excitation. The second part of the course will cover systems analysis by introducing concepts of transfer functions, state-space models, and flight controls.

Attendance and Expectations

Students are required to attend every lecture. The entirety of exams and homeworks are constructed based on content and concepts presented in these lectures so you will not be properly prepared if you do not attend class. The lectures and recommended textbooks are meant to present complementary approaches and examples so the textbooks are supplementary to, but not replacements for, the lectures. Also, some lectures may have unannounced in-class quizzes.

Evaluation of Grades

date	event	course value
various	homework/quizzes	25%
September 30	exam 01	15%
October 19	exam 02	30%
November 22	exam 03	30%
December 04	exam 03	30%

Grading Policy

Grades will be determined based on a curve that reflects the level of difficulty for each homework and exam. This curve is not based on class performance or the student average; instead, the curve is determined before the exam is given based on the amount of partial credit allowed for each solution. In this way, there is not any pre-determined grade distribution which means everyone is able to get an A.

Grade Evaluation

Any exam for which a student wants the grade to be evaluated must be given to the instructor within 48 hours, and before the start of the subsequent lecture, of when the graded exams were available to the class.

Missed-Exam Policy

Students may request approval to miss an exam for academic/professional reasons as long as the request is submitted at least 2 weeks before the exam. A different exam will be given to the student usually before the scheduled exam or at the latest before the next lecture after the scheduled exam.

Cheating Policy

Submissions must strictly reflect your own work so any use of unauthorized materials (other students, notes, phones, computers, books) will be strictly penalized. Cheating on an exam or in-class quiz will be reported to the Dean of Students Office and will result in automatic grade of 0 for that exam or quiz. Such exams and quizzes will be monitored by proctors who may use photographs and video that will be presented as evidence of cheating.

Students Requiring Accommodations

Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, <https://www.dso.ufl.edu/drc>) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

Course Evaluation

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.aa.ufl.edu/students>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

University Honesty Policy

UF students are bound by The Honor Pledge which states, We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: On my honor, I have neither given nor received unauthorized aid in doing this assignment. The Honor Code (<https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/>) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.

Commitment to a Safe and Inclusive Learning Environment The Herbert Wertheim College of Engineering values broad diversity within our community and is committed to individual and group empowerment, inclusion, and the elimination of discrimination. It is expected that every person in this class will treat one another with dignity and respect regardless of gender, sexuality, disability, age, socioeconomic status, ethnicity, race, and culture.

If you feel like your performance in class is being impacted by discrimination or harassment of any kind, please contact your instructor or any of the following:

- Your academic advisor or Graduate Program Coordinator
- Robin Bielling, Director of Human Resources, 352-392-0903, rbielling@eng.ufl.edu
- Curtis Taylor, Associate Dean of Student Affairs, 352-392-2177, taylor@eng.ufl.edu
- Toshikazu Nishida, Associate Dean of Academic Affairs, 352-392-0943, nishida@eng.ufl.edu

Software Use All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

Student Privacy There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see: <http://registrar.ufl.edu/catalog0910/policies/regulationferpa.html>

Campus Resources

- Health and Wellness
 - **U Matter, We Care:** Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team

can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.

- **Counseling and Wellness Center:** <http://www.counseling.ufl.edu/cwc>, and 392-1575; and the University Police Department: 392-1111 or 9-1-1 for emergencies.
- **Sexual Assault Recovery Services (SARS):** Student Health Care Center, 392-1161.
- **University Police Department:** at 392-1111 (or 9-1-1 for emergencies), or <http://www.police.ufl.edu/>.

- Academic Resources

- **E-learning technical support:** 352-392-4357 (select option 2) or e-mail to Learning-support@ufl.edu. <https://lss.at.ufl.edu/help.shtml>.
- **Career Resource Center:** Reitz Union, 392-1601. Career assistance and counseling. <https://www.crc.ufl.edu/>.
- **Library Support:** <http://cms.uflib.ufl.edu/ask>. Various ways to receive assistance with respect to using the libraries or finding resources.
- **Teaching Center:** Broward Hall, 392-2010 or 392-6420. General study skills and tutoring. <https://teachingcenter.ufl.edu/>.
- **Writing Studio:** 302 Tigert Hall, 846-1138. Help brainstorming, formatting, and writing papers. <https://writing.ufl.edu/writing-studio/>.
