Applied Elasticity and Advanced Mechanics of Solids  
EGM 5533

*Class Periods in Gainesville:* Monday, 4th period; Wednesday, 4th period; Friday, 4th period (10:30-11:30 AM)

*Location:* NEB201

*Academic Term:* Fall 2021

**Instructor:**
Dr. Benoit Revil-Baudard  
Office: 153 UF/REEF, Shalimar, FL 32579  
Office hours: Tuesday 10:00 am to 12:00 pm CT  
Phone: (850) 833-9350 ext. 241  
E-mail: revil@ufl.edu

**Gainesville Campus Teaching Assistant:** Maedeh Lofti

**TA’s Office:**  
Please contact through the Canvas website

**Class Website:** [https://lss.at.ufl.edu](https://lss.at.ufl.edu)

Sign in to e-Learning in Canvas by clicking on “e-Learning in Canvas”  
Login using your gatorlink username and password

**In Shalimar, class meets on Monday: 9.30 am-11.30am and Monday 12.45pm-1.45 pm.**

**Course Description**

Credits 3

**Course Pre-Requisites / Co-Requisites**

Completion of undergraduate course in mechanics of materials (EGM 3520) or strength of materials or permission of the instructor.

**Course Objectives**

The major goal of this course is to provide exact (Theory of Elasticity) and approximate (Adv. Mech. Materials) methods in the analysis of solids and structures. Furthermore, this course will provide general concepts behind continuum solid mechanics, elements of thermoelasticity, isotropic elasticity and introduction to plasticity. The methods are applicable to design and analysis of mechanical, aerospace and civil engineering structures.

**Materials and Supply Fees**

**Required Textbooks and Software**

- Title: Advanced Mechanics of Materials and Applied Elasticity  
- Authors: C. Ugural and S.K. Fenster  
- Editor: Pearson, 5th edition or 6th edition  

(if course notes derived from various published sources are used, provide information above for each source)  
(if course notes are developed by the instructor, so state)

**Reference book:**

**Course Schedule**

Week 1: Introduction: Review of vector and tensor algebra and calculus

Week 2: Stress at a point: Cauchy theorem, Equilibrium equations, Morh circle

Week 3: Strain in a deformable body/ Strain theory
Week 4: General principles/Thermo-elasticity/isotropic elastic solid
Week 5: Linear elasticity law: Isotropic and anisotropic elastic solid/Exam
Week 6: Plane stress elasticity problems
Week 7: Introduction to inelastic material behavior
Week 8: Energy methods: Virtual work/Castigliano’s theorems
Week 9: Torsion of shafts: St Venant semi-inverse method/circular and non circular cross-section
Week 10: Exam/Inelastic torsion of shaft
Week 11: Bending of beams: symmetrical cross-sections
Week 12: Bending of beams: non-symmetrical cross-sections
Week 13: Point/line force acting on the surface of an infinite half-space: Boussinesq and Flamant solution
Week 14: Thick wall cylinder (1)
Week 15: Thick wall cylinder (2)/Exam
Week 16: Stability of columns

Attendance Policy, Class Expectations, and Make-Up Policy

Course web site: A course web site is established thru UF/EDGE. Students will be expected to check it on a regular basis for up-to-date course information. This may include changes to the syllabus, homework assignment due dates, and exam schedules.

Exams: Three 1-hour exams will be given during the semester during the regularly scheduled class time. No final exam will be given.

Tentative schedule of the exams: Exam1: September 22nd; Exam 2: October 27th, Exam 3: December 3rd

No exams will be given prior to the scheduled dates and no makeup exams will be given. No books, tables, or calculators are allowed.

Homework: Problems will be assigned on Wednesday and collected at the end of the following Wednesday class meeting. Late homework will not be accepted. However, hardship cases will be considered on an individual basis and only if the instructor has been contacted before the due date of the assignment.

Excused absences must be consistent with university policies in the Graduate Catalog (https://catalog.ufl.edu/graduate/regulations) and require appropriate documentation. Additional information can be found here: https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/

**Students Requiring Accommodations**

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center by visiting https://disability.ufl.edu/students/get-started/. It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

**Course Evaluation**

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at https://gatorevals.aa.ufl.edu/students/. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via https://ufl.bluera.com/ufl/. Summaries of course evaluation results are available to students at https://gatorevals.aa.ufl.edu/public-results/.

**In-Class Recording**

Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student Honor Code and Student Conduct Code.

**University Honesty Policy**

UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Conduct Code (https://sccr.dso.ufl.edu/process/student-conduct-code/) specifies a number of behaviors that are in violation
of this code and the possible sanctions. If you have any questions or concerns, please consult with the instructor or TAs in this class.

Commitment to a Safe and Inclusive Learning Environment
The Herbert Wertheim College of Engineering values broad diversity within our community and is committed to individual and group empowerment, inclusion, and the elimination of discrimination. It is expected that every person in this class will treat one another with dignity and respect regardless of gender, sexuality, disability, age, socioeconomic status, ethnicity, race, and culture.

If you feel like your performance in class is being impacted by discrimination or harassment of any kind, please contact your instructor or any of the following:
• Your academic advisor or Graduate Program Coordinator
• Jennifer Nappo, Director of Human Resources, 352-392-0904, ipennacc@ufl.edu
• Curtis Taylor, Associate Dean of Student Affairs, 352-392-2177, taylor@eng.ufl.edu
• Toshikazu Nishida, Associate Dean of Academic Affairs, 352-392-0943, nishida@eng.ufl.edu

Software Use
All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

Student Privacy
There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see: https://registrar.ufl.edu/ferpa.html
